

Sprint #5 Review

Sprint: Sprint 5

Date: 18/10/2020

Scrum Master: Gihan Abenayake(s3779792)

Development team: Thanh Duong (S3601172), Nicholas Mladenov (S3539747), Muhammad Fathur Giorady (S3737757)

Sprint Goals

Goal:

All Components completed

Describe what was planned to achieve, the roadmap elements you wanted to target, and the milestones in the Sprint.

Plan to achieve:

We had planned to achieve a completed project. I.e. Having all the features implemented and complete. However we were unable to do so due to tasks being blocked.

Milestone for this sprint(roadmap):

- All Components added and integrated.

Status Overview

Describe the planned sprint items, compare finish vs unfinished, added vs removed, changed priorities.

Explain how you will continue to work with uncompleted work.

- End of Project so work shall not continue

Screenshots

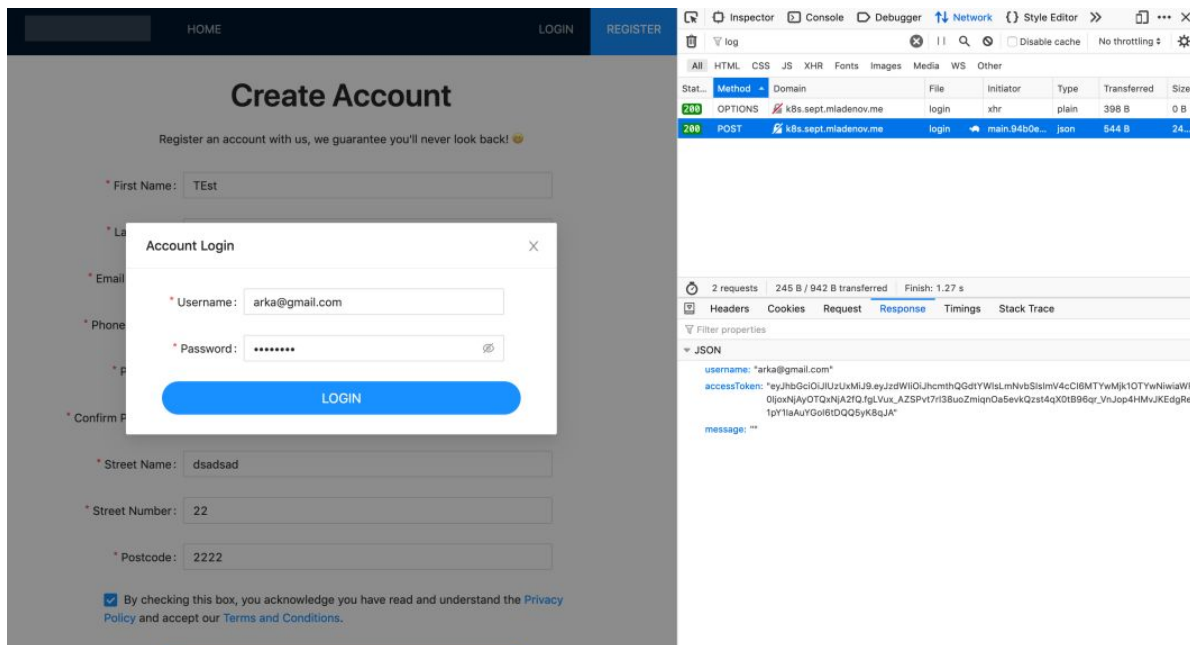

LARGER VERSIONS OF ALL IMAGES ARE AVAILABLE IN THE SCREENSHOTS FOLDER

Provide some screenshots of your system working, with a brief description of what we are seeing. Pretend this is the transcription of a 5min live demo.

The screenshot shows a web application's registration page. At the top, a dark navigation bar contains a 'HOME' link, a 'LOGIN' link, and a 'REGISTER' button. The main heading is 'Create Account', followed by a subtext: 'Register an account with us, we guarantee you'll never look back 😊'. The form consists of several input fields with labels and placeholder text: 'First Name', 'Last Name', 'Email Address', 'Phone Number' (with a '+61' country code dropdown), 'Password', 'Confirm Password', 'Street Name', 'Street Number', and 'Postcode'. Each field has a small icon indicating a required field. Below the form is a checkbox for 'By checking this box, you acknowledge you have read and understand the Privacy Policy and accept our Terms and Conditions.' A large blue 'REGISTER' button is positioned below the checkbox. The page has a light blue background with a white footer at the bottom that reads 'RMIT SEPT Project Group 6 TUES-18.30-2 © 2020'.

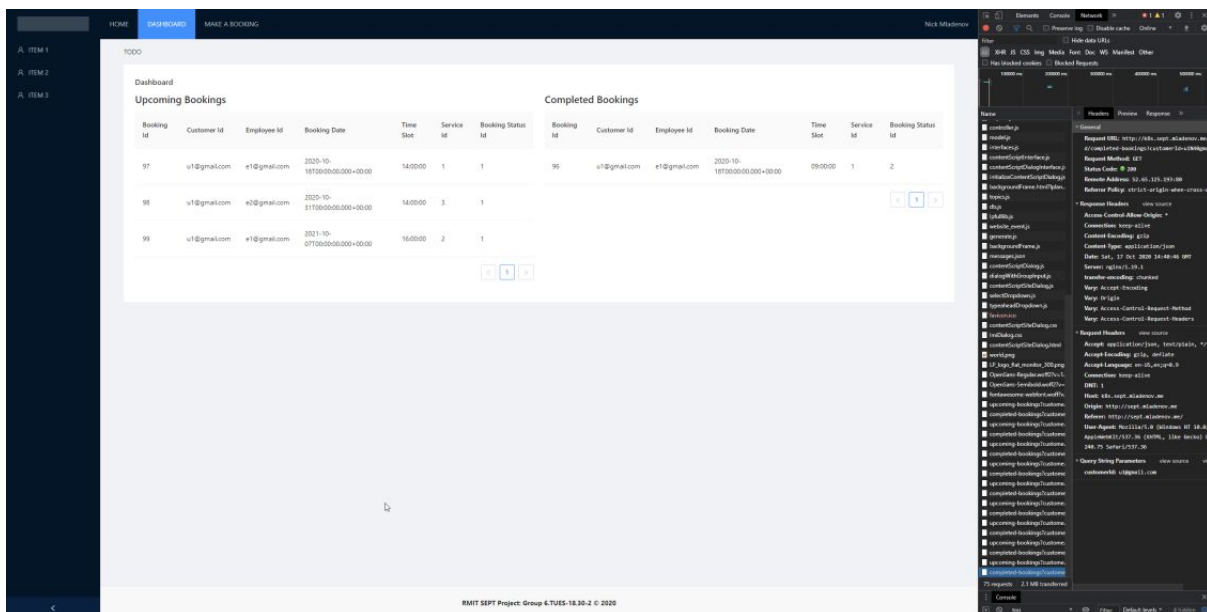

Registration

This is the registration page for a new user. All the fields have validation with required fields checking if they are empty or not.

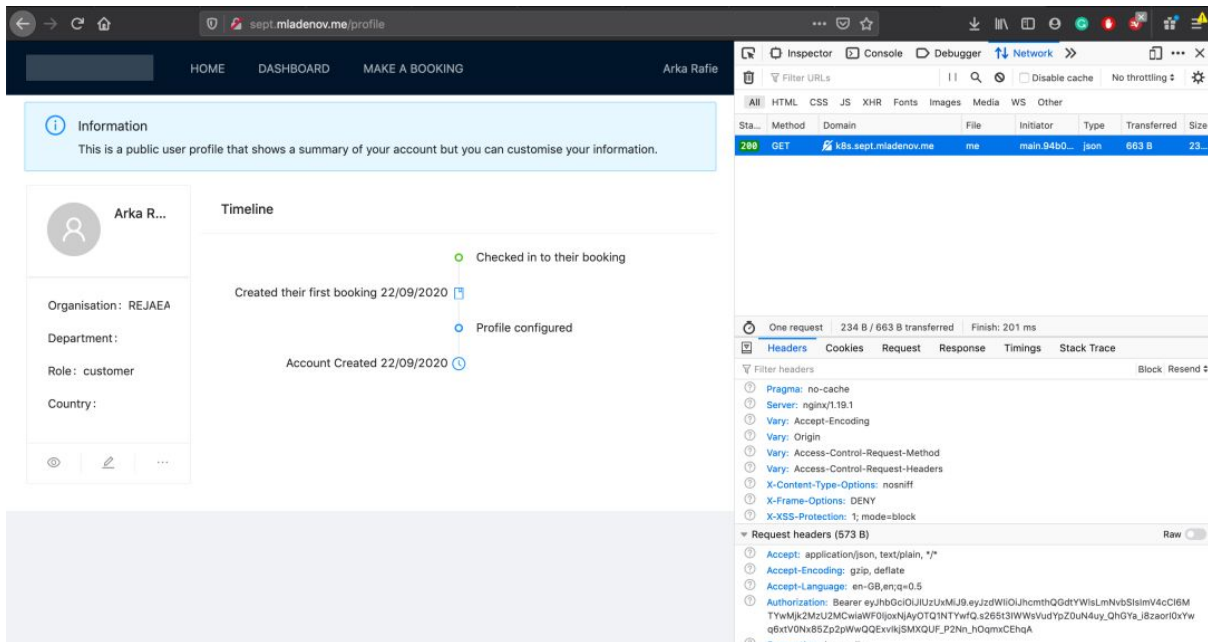

Login

This is a screenshot of the login page for the site. Our login uses the Email address of the user for a Username and a Password that they made in Register for verification

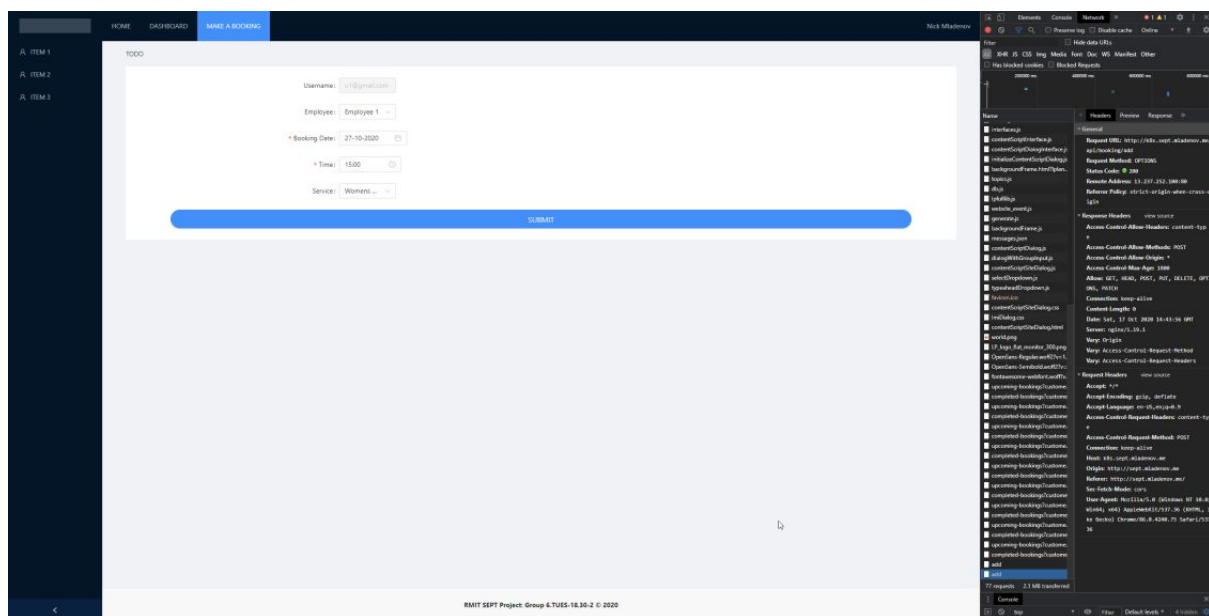

Dashboard

This is the dashboard for a user that has logged in. It displays any upcoming or completed bookings that they have allowing a way for them to track their bookings at a glance

User Profile

This is the User profile for a user. This lists any details they have provided with the ability to edit all the data at their discretion. It also contains a timeline to track changes including bookings they have made

Booking form

This is the booking form for our site, The booking form allows for a user to create a booking by selecting details such as the job they require and employees that they wish to have the booking under. All time slots for bookings are an hour long.

Burndown Explanation

This burndown was automatically created for us on by Jira's reports system

Burndown Analysis

As can be seen in this chart, our sprint fluctuated at points, with us adding tasks throughout the sprint to compensate for bugs and features as needed. Overall a decrease at the end of the sprint with all the required tasks we had set out completed.
