1. Things That Went Well

Team Integration

Feature completion fully finished

2. Things That Could Have Gone Better

- *Planning - Better allocation of tasks for a more timely completion*
- *Communication could have been better throughout the sprint to not leave tasks till last minute*

3. Things That Surprised Us

- *Delays in task completion*

4. Lessons Learned

Team workflow is still something to fix, Too many tasks in too short a time frame

- *Don't overcomplicate work*

Team workflow could also be improved by splitting work between multiple team members

5. Final Thoughts

Things to Keep

Team communications

Communication

Things to Change

Task splitting - Better workflow for better cohesion and communication

Break down tasks more. - Dont complete entire sections as a whole

Better planning in future projects. Account for more delays, mainly as a sprint wears down rather than begins

Do not write more than 2 pages for each of the sprint. Replace the the highlighted yellow hints by your text.
