[31-Jul-20 05:13 PM] Giorady#6317

[31-Jul-20 05:14 PM] ickyschlicky#2800

ah we can just do screenshots

[31-Jul-20 05:14 PM] ickyschlicky#2800

Apologies for only joining now. Internet's been on the Fritz this week and I'm running on data for this quick message. I'm Gihan and I'm best at logistical stuff. Ie. Diagrams and analysis ect. Not so good on the coding aspect but I'm happy to help if I can.

@Shadowfenrrir it's alright, you're not the only one here that's not so good with coding 😉 . But i'll try do do some backend coding for this assignment guided by our 2 experienced programmer @dex @ickyschlicky

[02-Aug-20 06:52 PM] dex#6146

@Shadowfenrrir If you prefer there's also a the scrum master/project manager role that needs to be fulfilled which will just be technical analysis without any actual coding of such

[02-Aug-20 06:53 PM] dex#6146

I'm sure 3 people covering the technical side regarding implementation should be sufficient

[02-Aug-20 09:12 PM] Shadowfenrrir#8206

Sure. I'll take project manager. Might need to figure out what I need to do again but I'll do what I can!

[03-Aug-20 09:05 AM] Shadowfenrrir#8206

Well... my internet has gone down... woot. Probably won't be able to make today's tut unless it comes back. Welp hope its back tomor w

[03-Aug-20 02:35 PM] ickyschlicky#2800

hey all ive completed two user stories following a template if you guys needed a reference

[03-Aug-20 02:35 PM] ickyschlicky#2800

all on jira

[03-Aug-20 03:54 PM] Shadowfenrrir#8206

Using data for this but does anyone have a link to the github group? The one in resources is expired.

[03-Aug-20 04:01 PM] Shadowfenrrir#8206

Also, Note, Those who have done User stories on Jira, A user story has three parts not two. Who,What,Why

[03-Aug-20 04:01 PM] Shadowfenrrir#8206

Who is the user, What are they doing, Why are they doing it

Internets still broken BTW so Dont know if I'll be there for tomorows prac... Yikes

[03-Aug-20 04:28 PM] ickyschlicky#2800

i think @dex needs to invite you

[03-Aug-20 05:15 PM] dex#6146

There was an invite to all students for joining the RMIT organisation on GitHub

Once you've joined that you should be able to just select which group you want to join

[03-Aug-20 05:16 PM] dex#6146

I'll add my three W's tonight

[03-Aug-20 05:29 PM] Shadowfenrrir#8206

What's our team name cause I can't find it. I was already a part of a group so this one may be marked as private or secret

@Shadowfenrrir 6.TUES-18.30-2

[03-Aug-20 05:31 PM] Giorady#6317

i'll make 2 user stories regarding the login & registration function tonight

[03-Aug-20 05:54 PM] dex#6146

Also @here remember to assign the work you're doing to yourself and whatever is in scope for the first sprint move it up into the sprint as that's required for ~~tomorrows~~ next weeks demonstration

[03-Aug-20 05:55 PM] Giorady#6317

noted 👍

[03-Aug-20 05:56 PM] Shadowfenrrir#8206

The groups invisible. So ill need a link if I want to be acceptes

[03-Aug-20 05:56 PM] dex#6146

I also added a seperate field for acceptance criteria to seperate the definition of done from your who, what and whys

[03-Aug-20 05:56 PM] dex#6146

> The groups invisible. So ill need a link if I want to be acceptes

@Shadowfenrrir You mean in GitHub?

[03-Aug-20 05:56 PM] Shadowfenrrir#8206

Aye

[03-Aug-20 05:57 PM] dex#6146

Haa. Grand. Ill message Lawerenxe about it.

[03-Aug-20 05:58 PM] dex#6146

Based on what Homy said you should be able to automatically join without issues, seems that ain't the case so yeah try message either one

[03-Aug-20 05:59 PM] dex#6146

@Shadowfenrrir Does that URL give you a 404?

[03-Aug-20 06:04 PM] dex#6146

If you're not in the org try join using: https://classroom.github.com/g/TvIwMLym

[03-Aug-20 08:30 PM] dex#6146

Alright, I've done all of my user stories, added a few epics, assigned story points, descriptions, acceptance criteria, prioritised, linked dependencies, added to the sprint and created template defaults for new user stories

[03-Aug-20 08:30 PM] dex#6146

Feel free to use any of them as a reference if you're having trouble but they're not too different from the examples that Thanh have as it's all based on the template provided in Canvas 🙂

[03-Aug-20 09:53 PM] ickyschlicky#2800

dont move anything to sprint yet

[03-Aug-20 09:53 PM] ickyschlicky#2800

[04-Aug-20 06:47 PM] dex#6146

[04-Aug-20 06:47 PM] dex#6146

[05-Aug-20 04:08 PM] Shadowfenrrir#8206

[05-Aug-20 06:06 PM] Giorady#6317

[05-Aug-20 06:30 PM] ickyschlicky#2800

@here hey all noticed that nicholas is still offline so maybe give him a few minutes before we start

thanks!

[08-Aug-20 07:37 PM] Giorady#6317

@ickyschlicky @dex Hey, I was wondering which software r u guys using for this project? IntelliJ, VS Code, or smthin else?

[08-Aug-20 07:38 PM] Giorady#6317

And will it matter if not all of us use the same software?

[08-Aug-20 07:45 PM] ickyschlicky#2800

Should probably keep it all the same for consistency

[08-Aug-20 07:45 PM] ickyschlicky#2800

ill most likely be using vscode and will be trying out IntelliJ but if it proves to be too difficult i might swap back to eclipse

[08-Aug-20 07:46 PM] Giorady#6317

So in the current state, its best to stick with vscode first?

[08-Aug-20 07:47 PM] Giorady#6317

tbh i'm more familiar with vs code as well, but if u guys have any preference, please let me know

[08-Aug-20 07:48 PM] ickyschlicky#2800

vscode is defs the way to go for react stuff

[08-Aug-20 07:48 PM] ickyschlicky#2800

but intelliJ and Eclipse is better for the java backend

[08-Aug-20 07:49 PM] Giorady#6317

> but intelliJ and Eclipse is better for the java backend

@ickyschlicky ah okay, since im gonna start with backend, i'll use either one then

[08-Aug-20 07:49 PM] Giorady#6317

thanks

[08-Aug-20 09:30 PM] Giorady#6317

@here I've uploaded the Database Schema in #resources , if you guys have any input regarding the database, feel free to chat here or we can discuss it on Monday meeting. After we've all agreed on the schema, then I'll work on making the local database instance

[09-Aug-20 02:35 PM] dex#6146

intellij for everything other than frontend

[09-Aug-20 02:36 PM] dex#6146

fyi circleci couldn't be setup without either being provided repo admin or authorisation from the owner

[09-Aug-20 04:31 PM] ickyschlicky#2800

im happy to stick with intellij if you guys are

[09-Aug-20 04:31 PM] ickyschlicky#2800

we should ask muhammad on tuesday about the circleci stuff then

[09-Aug-20 06:57 PM] ickyschlicky#2800

@here ive put the Wireframe in #resources as well we will probably discuss it in the meeting tomorrow, for now ive stopped mapping out the admin portion as im not sure what weve decided is in our scope

[09-Aug-20 06:58 PM] ickyschlicky#2800

@Giorady just a reminder to drag your cards around in jira as well so we can know what youre currently up to boss

[09-Aug-20 07:14 PM] Giorady#6317

> @Giorady just a reminder to drag your cards around in jira as well so we can know what youre currently up to boss

@ickyschlicky oh right, got it

[09-Aug-20 07:20 PM] dex#6146

@Giorady Since you also own the Jira instance you'll have to be the one who integrates GitHub for branch and PR tracking using the following free extension: https://s3737757.atlassian.net/jira/software/projects/SEPT/code

[09-Aug-20 07:21 PM] dex#6146

It should be fairly straight forward and guide you through the process step by step

[09-Aug-20 07:21 PM] Giorady#6317

okay, i'll look into it later tonight

[09-Aug-20 07:22 PM] dex#6146

[09-Aug-20 09:55 PM] Giorady#6317

> fyi circleci couldn't be setup without either being provided repo admin or authorisation from the owner

@dex can i just transfer the ownership to you?

[10-Aug-20 07:10 AM] dex#6146

The above is related to Jira ownership - but you might be able to make me admin to install plugins

[10-Aug-20 07:11 AM] dex#6146

Otherwise, it should be as simple as clicking the link, installing the free extension, then logging into GitHub to connect the project

[10-Aug-20 07:58 AM] ickyschlicky#2800

everyone still okay with 6:30 tonight?

[10-Aug-20 08:01 AM] Shadowfenrrir#8206

Should be. Telstra called and said my new modem should be here around 2 so if so I'm good

[10-Aug-20 10:19 AM] dex#6146

Yeah, should be good - there wasn't a meeting invite sent out was there?

[10-Aug-20 10:20 AM] dex#6146

@Giorady Any luck with the extension? I have a feature branch that's ready to be PRed back into the `master` branch which would be good to have directly linked via Jira

[10-Aug-20 10:37 AM] Giorady#6317

hey can you have a quick call rn? @dex

[10-Aug-20 10:38 AM] Giorady#6317

i already added the extension, but i dont know how to connect the project

[10-Aug-20 10:39 AM] dex#6146

yeah sure 👍

[10-Aug-20 10:53 AM] Giorady#6317

hey guys, do we need to show our own Acceptance Test tomorrow at the lab OR we just need to submit it on the 14th on canvas? @here

[10-Aug-20 10:54 AM] dex#6146

I believe both

[10-Aug-20 10:55 AM] dex#6146

Should only require 1 test per story minimum

[10-Aug-20 11:01 AM] Giorady#6317

okay, thanks

[10-Aug-20 07:27 PM] Shadowfenrrir#8206

Meeting Thursday 6:30

[10-Aug-20 07:27 PM] ickyschlicky#2800

just to discuss milestone stuff

[10-Aug-20 07:29 PM] ickyschlicky#2800

@dex please check meeting minutes to catch up on today when you get a chance boss

[10-Aug-20 08:44 PM] dex#6146

alright, can we send out meeting invites next time? difficult for me to track the meeting time with everything else

[10-Aug-20 09:09 PM] ickyschlicky#2800

sure thing boss when you have a chance could you send one gihan?

[11-Aug-20 09:32 AM] Shadowfenrrir#8206

Uh sure... just got to figure out how to do that

[11-Aug-20 09:33 AM] Shadowfenrrir#8206

Also question. @here Should the customers be able to add themselves and if so do we have a wireframe for that already?

[11-Aug-20 12:02 PM] Giorady#6317

> Also question. @here Should the customers be able to add themselves and if so do we have a wireframe for that already?

@Shadowfenrrir yeah, by registering themselves

[11-Aug-20 01:12 PM] Shadowfenrrir#8206

Does our login have a register sub pages?

[11-Aug-20 01:16 PM] Giorady#6317

that one you gotta confirm with Thanh

[11-Aug-20 01:16 PM] Giorady#6317

but we will have to implement that anyways

[11-Aug-20 01:17 PM] Giorady#6317

based on the spec "User registration for customers: name, address, phone, username and password. Customers can register themselves and the data must be saved to the database."

[11-Aug-20 01:53 PM] ickyschlicky#2800

roger i will mock that up

[11-Aug-20 05:34 PM] ickyschlicky#2800

i just read through the spec again

[11-Aug-20 05:34 PM] ickyschlicky#2800

the login and registration stuff was provided as an example

[11-Aug-20 05:34 PM] ickyschlicky#2800

so i think we can negotiate it with our tutor and leave it out of scope

[11-Aug-20 06:03 PM] Shadowfenrrir#8206

@here Question. Do we all join a call for this meeting or do we just join the original meeting?

[11-Aug-20 06:13 PM] ickyschlicky#2800

if its like last week i think we just wait in our group on microsoft teams

[11-Aug-20 06:13 PM] ickyschlicky#2800

and if we have any questions after hes gone through everyone we join the original

[11-Aug-20 06:20 PM] Shadowfenrrir#8206

Righto

[11-Aug-20 06:43 PM] Shadowfenrrir#8206

@dex MEETING IN 2

[11-Aug-20 06:43 PM] Shadowfenrrir#8206

@here

[11-Aug-20 06:44 PM] Shadowfenrrir#8206

@Giorady Ready for the meeting

[12-Aug-20 09:03 PM] dex#6146

Still no update from Homy about providing additional access

[12-Aug-20 09:05 PM] Giorady#6317

hmm, how are we gonna handle this then?

[12-Aug-20 09:06 PM] dex#6146

Will probably need to ask or bring it to his attention again in one of his consultation sessions

[12-Aug-20 09:06 PM] Giorady#6317

when is the consultation session ?

[12-Aug-20 09:06 PM] Giorady#6317

i might will come as well to address this

[13-Aug-20 10:54 PM] Giorady#6317

1. SQL Scripts CREATE TABLE

2. Source DBMaintain

3. Execute DBMaintain

[13-Aug-20 10:55 PM] Giorady#6317

@here, just wanna let u guys know, those are the steps for me to create the database ^^

[13-Aug-20 10:55 PM] Giorady#6317

[14-Aug-20 02:32 PM] Giorady#6317

[16-Aug-20 11:21 AM] ickyschlicky#2800

@Shadowfenrrir milestone submission coming up did you need help filling in user stories and stuff?

[16-Aug-20 03:43 PM] Shadowfenrrir#8206

Aye some help would be appreciated

[16-Aug-20 03:48 PM] ickyschlicky#2800

@here gihan and I were discussing over text, im helping her with jira/user story stuff she may split some tasks off to you guys in a bit if thats okay

[16-Aug-20 03:52 PM] Giorady#6317

sounds good mate

[16-Aug-20 03:53 PM] Giorady#6317

just wanna let you guys know that im gonna finish the database on tuesday before the submission

[16-Aug-20 03:53 PM] Giorady#6317

gonnabe tight

[16-Aug-20 03:54 PM] ickyschlicky#2800

thats fine dont worry too much about that

[16-Aug-20 03:54 PM] ickyschlicky#2800

the first milestone is due tomorrow at noon

[16-Aug-20 03:54 PM] ickyschlicky#2800

and its mostly admin stuff like having user stories and git set-up properly

[16-Aug-20 03:54 PM] Giorady#6317

oh its tomorrow?

[16-Aug-20 03:54 PM] Giorady#6317

oh no but i havent finish the database

[16-Aug-20 03:54 PM] ickyschlicky#2800

thats not being marked dont worry

[16-Aug-20 03:54 PM] Giorady#6317

ahh phew

[16-Aug-20 03:54 PM] ickyschlicky#2800

check the rubric boss

[16-Aug-20 03:55 PM] ickyschlicky#2800

like i said its stuff like github, user stories, acceptance tests and chat logs

[16-Aug-20 03:55 PM] Giorady#6317

i overthink abt it too much i thought we have to finish all the sprint logs

[16-Aug-20 04:15 PM] dex#6146

by user stories what exactly do you mean?

[16-Aug-20 04:15 PM] dex#6146

I've populated mine with every bit of detail?

[16-Aug-20 04:15 PM] dex#6146

linking between the two platforms is impossible because my email was ignored about access

[16-Aug-20 04:16 PM] Giorady#6317

some of mine havent

> I've populated mine with every bit of detail?

@dex

[16-Aug-20 04:16 PM] Giorady#6317

> linking between the two platforms is impossible because my email was ignored about access

@dex jeezus

[16-Aug-20 04:16 PM] Giorady#6317

any alternative solution?

[16-Aug-20 04:17 PM] dex#6146

not unless they do it all for us but they need admin against the platform, etc

[16-Aug-20 04:17 PM] dex#6146

which regardless of whether you give it to them if they don't even respond to the email I'm doubtful they'll link it

[16-Aug-20 04:24 PM] ickyschlicky#2800

your user stories are fine nicholas

[16-Aug-20 04:24 PM] ickyschlicky#2800

its just we have a lot of other ones missing information so im working my way through them right now

i believe the markers have access to our github and such right?

{Reactions}

👍

[16-Aug-20 04:25 PM] ickyschlicky#2800

if not i think we can just make a document with screenshots of our git and discord logs and so on

[16-Aug-20 04:26 PM] ickyschlicky#2800

@Giorady could you go through your user stories and fill in your acceptance tests as well?

[16-Aug-20 04:26 PM] ickyschlicky#2800

im going through mine right now and i think im going to add some more user stories just so we have an okay looking backlog

[16-Aug-20 04:26 PM] Shadowfenrrir#8206

They should have access

[16-Aug-20 04:27 PM] Giorady#6317

got it

> @Giorady could you go through your user stories and fill in your acceptance tests as well?

@ickyschlicky

[16-Aug-20 04:27 PM] Shadowfenrrir#8206

If not ive got links in the main doc that im making now

[16-Aug-20 04:27 PM] ickyschlicky#2800

```perhaps 4-6 per functionality group --- i.e., per user type --- so perhaps 12-18 total```

[16-Aug-20 04:27 PM] ickyschlicky#2800

this is for user stories so ill probably work on that after

[16-Aug-20 04:27 PM] Shadowfenrrir#8206

Everyones good with 25% Con right?

[16-Aug-20 04:27 PM] ickyschlicky#2800

as of now yeah

[16-Aug-20 04:27 PM] Shadowfenrrir#8206

Did we have a sprint planing doc somewhere?

[16-Aug-20 04:27 PM] ickyschlicky#2800

is the doc your making on our google drive?

[16-Aug-20 04:28 PM] Shadowfenrrir#8206

Nah. Ill drop it in now

[16-Aug-20 04:28 PM] ickyschlicky#2800

could you give us access

[16-Aug-20 04:28 PM] ickyschlicky#2800

we didnt make a sprint planning doc but i believe you have meeting minutes

[16-Aug-20 04:28 PM] ickyschlicky#2800

since we just looked at jira and assigned tasks

[16-Aug-20 04:29 PM] Shadowfenrrir#8206

Its up, everyone should have editor access

[16-Aug-20 04:30 PM] ickyschlicky#2800

then i think right now the tasks are

[16-Aug-20 04:30 PM] ickyschlicky#2800

me and gio - user story + acceptance test

gihan - collating information

[16-Aug-20 04:31 PM] ickyschlicky#2800

if you need help with providing proof and stuff maybe ask nick since he should doesn't have much to do atm

[16-Aug-20 04:33 PM] Shadowfenrrir#8206

Sure. Im good for the next couple hours, so just ping me and i should hear it.

[16-Aug-20 04:37 PM] Shadowfenrrir#8206

How are we doing communication logs?

[16-Aug-20 04:38 PM] Shadowfenrrir#8206

Screen shots arent exactly readable on a word doc/ PDF

[16-Aug-20 04:38 PM] ickyschlicky#2800

i think

[16-Aug-20 04:39 PM] ickyschlicky#2800

provide screenshots of our general discord set up

[16-Aug-20 04:39 PM] ickyschlicky#2800

How to: Export a Discord Chat Log | PM's or text channels

I've had a few reasons to save an entire chat once in a while. Maybe you're deleting a channel and want to keep its history, or you feel someone might delete some messages, then this is for you.

Having a complete text-based backup of a chat will often be better than a bunch of...

https://i.ytimg.com/vi/3JwpN9cl5KE/maxresdefault.jpg

[16-Aug-20 04:39 PM] ickyschlicky#2800

and provide it as an extra notepad file or something

[16-Aug-20 04:39 PM] ickyschlicky#2800

txt file rather

[16-Aug-20 04:51 PM] Shadowfenrrir#8206

Well... that doesnt work

[16-Aug-20 04:53 PM] ickyschlicky#2800

i think just screenshots are fine then

[16-Aug-20 04:53 PM] ickyschlicky#2800

shows that we are communicating on discord idt they care about content

[16-Aug-20 04:56 PM] Shadowfenrrir#8206

Dw. Got it to work

[16-Aug-20 04:59 PM] Shadowfenrrir#8206

Okay, Everythings done on my end, I'll zip this up around 8 ish tomorow morning so take your time to get what we need done. Ping me if you want help. Imma go work on the US

[16-Aug-20 05:03 PM] ickyschlicky#2800

i just went through all my user stories im gonna take a break

[16-Aug-20 05:03 PM] ickyschlicky#2800

ill have a look later tonight and help with last minute edits on the doc and adding user stories if youre fine with that

[16-Aug-20 05:03 PM] ickyschlicky#2800

@Shadowfenrrir

[16-Aug-20 05:10 PM] Shadowfenrrir#8206

Sure. As long as you've done your bit that fine

[16-Aug-20 05:17 PM] Shadowfenrrir#8206

hey @Giorady Just a note. I'm deleting SEPT-28 as its a duplicate with SEPT-5

[16-Aug-20 05:18 PM] Shadowfenrrir#8206

same with SEPT-29

[16-Aug-20 05:28 PM] Giorady#6317

okay

[16-Aug-20 06:59 PM] dex#6146

btw mohamad has access and has accepted it but homy hasn't accepted his invite

[16-Aug-20 07:00 PM] dex#6146

i still have 2 tasks that haven't been filled so I'll do them now

[16-Aug-20 07:01 PM] dex#6146

also @Shadowfenrrir what's the flag for against those two items you raised?

[16-Aug-20 07:02 PM] dex#6146

even if they're flagged they still exist in the backlog

[16-Aug-20 07:02 PM] dex#6146

they should either be converted to different tasks after being replaced with a `TODO` or deleted entirely

[16-Aug-20 07:48 PM] Shadowfenrrir#8206

ya need to be deleted. flagged cause my parents were calling and i had to go

[16-Aug-20 09:01 PM] Giorady#6317

@here

[16-Aug-20 09:01 PM] Giorady#6317

im not quite sure how to make the acceptance criteria for SEPT 33 & SEPT 32

[16-Aug-20 09:01 PM] Giorady#6317

because they're a bit technical

[16-Aug-20 09:15 PM] Giorady#6317

If anyone here knows how to do it, i would really appreciate the help 🙂

[16-Aug-20 09:49 PM] Giorady#6317

I've finished all my Acceptance Tests, except for this one

> im not quite sure how to make the acceptance criteria for SEPT 33 & SEPT 32

[16-Aug-20 10:16 PM] ickyschlicky#2800

@Giorady have a look at the ones i made for the wireframe should be similar

[16-Aug-20 10:47 PM] dex#6146

they don't need to be perfect so long as they're along the lines of what the user story wants and clarifies some of the information it should be sufficient

[16-Aug-20 10:49 PM] dex#6146

I also doubt they expect all of these to be the final set of user stories

[16-Aug-20 10:49 PM] dex#6146

once the first sprint is up we go through the backlog and see what's missing to add more items

[16-Aug-20 10:50 PM] dex#6146

I did also email Homy again... still no response

[16-Aug-20 10:51 PM] dex#6146

he usually has an info session tomorrow after the tutorial so I might try ask then

[16-Aug-20 10:51 PM] ickyschlicky#2800
sounds good nicholas

[16-Aug-20 10:51 PM] ickyschlicky#2800
yeah i doubt this is the final backlog we have a good amount as of now i think

[16-Aug-20 10:51 PM] ickyschlicky#2800
im cleaning up the document gihan provided earlier

[16-Aug-20 10:51 PM] dex#6146
yeah, for now it's more than sufficient

[16-Aug-20 10:51 PM] ickyschlicky#2800
could you help me out and fill it in with the tasks you completed?

[16-Aug-20 10:52 PM] ickyschlicky#2800
bc we need to log our contribution and stuff

[16-Aug-20 10:52 PM] dex#6146
yeah sure - could you link me the doc

not sure if thats a shareable link

[16-Aug-20 10:52 PM] ickyschlicky#2800

let me know

[16-Aug-20 10:53 PM] dex#6146

do they have an example of this completed?

[16-Aug-20 10:53 PM] dex#6146

with all the necessary info

[16-Aug-20 10:54 PM] ickyschlicky#2800

im not sure how detailed we have to be but gihan listed all the tasks she did so i followed

[16-Aug-20 10:54 PM] ickyschlicky#2800

if you scroll down to the second page

[16-Aug-20 10:54 PM] ickyschlicky#2800

you should see my compelted one

[16-Aug-20 10:55 PM] dex#6146

two sections look identical

[16-Aug-20 10:56 PM] dex#6146

yours is just neater

[16-Aug-20 10:56 PM] ickyschlicky#2800

yeah im rewriting her things

[16-Aug-20 10:59 PM] dex#6146

idk to me this document seems meaningless

[16-Aug-20 11:00 PM] dex#6146

they have all the info in Jira

[16-Aug-20 11:00 PM] ickyschlicky#2800

agreed but the submission specifically states we need to list it

[16-Aug-20 11:01 PM] dex#6146

mhm fair enough, whatever makes them happy I guess

[16-Aug-20 11:01 PM] dex#6146

probably gonna reformat mine since they ask for test case links

[16-Aug-20 11:02 PM] dex#6146

yet it's under the same issue id

[16-Aug-20 11:03 PM] dex#6146

individual page for each member would be nicer

[16-Aug-20 11:03 PM] dex#6146

not a fan of info going onto a separate page

[16-Aug-20 11:04 PM] ickyschlicky#2800

yeah thats fine

[16-Aug-20 11:04 PM] ickyschlicky#2800

just getting everything done first then we can reformat in a bit

[16-Aug-20 11:04 PM] ickyschlicky#2800

@Shadowfenrrir @Giorady we're making edits to the document if you guys wake up in time please give the work contributed a double check so that you guys are getting credited for your work fairly

[16-Aug-20 11:10 PM] dex#6146

did we write this?

```

Please note that communication done with the team and product owner is done via Microsoft Teams and team communication is done via a private Discord server. Chat-logs have been provided for proof.

```

[16-Aug-20 11:12 PM] ickyschlicky#2800

i wrote that

[16-Aug-20 11:12 PM] ickyschlicky#2800

just bc i dont think we can provide a link to microsoft teams?

[16-Aug-20 11:12 PM] ickyschlicky#2800

and providing discord link to this server seems to defeat the purpose of it being seperate from teams

[16-Aug-20 11:12 PM] ickyschlicky#2800

but we can provide an invite link if you think its good

[16-Aug-20 11:13 PM] dex#6146

shouldn't require an invitation? just an export of the messages

[16-Aug-20 11:13 PM] ickyschlicky#2800

yeah gihan has the other documents on her system

[16-Aug-20 11:13 PM] ickyschlicky#2800

like the chat logs and everything

[16-Aug-20 11:13 PM] dex#6146

an export?

[16-Aug-20 11:13 PM] ickyschlicky#2800

yeah i linked her a video earlier

[16-Aug-20 11:13 PM] dex#6146

well chat logs should contain all information up until submission

[16-Aug-20 11:13 PM] ickyschlicky#2800

on how to do it

[16-Aug-20 11:14 PM] dex#6146

would of left that until tomorrow

[16-Aug-20 11:14 PM] dex#6146

or atleast until all the work is completed for submission items

[16-Aug-20 11:14 PM] ickyschlicky#2800

i dont think theyre checking for content honestly its more so like they just want proof that were talking to each other

[16-Aug-20 11:14 PM] dex#6146

you'd be surprised mate 😉

[16-Aug-20 11:14 PM] ickyschlicky#2800

if anything when gihan wakes up tomorrow to submit she can export it again

[16-Aug-20 11:14 PM] dex#6146

i would export as there has been deeper team discussion

[16-Aug-20 11:15 PM] ickyschlicky#2800

@Shadowfenrrir please export the chatlogs again when you submit HAHA

[16-Aug-20 11:15 PM] dex#6146

i doubt they need to be screenshots

[16-Aug-20 11:15 PM] dex#6146

text dump is sufficient so long as it included everyone

[16-Aug-20 11:16 PM] dex#6146

you can also convert txt to pdf

[16-Aug-20 11:16 PM] ickyschlicky#2800

the video i linked exports it as like a html file

[16-Aug-20 11:16 PM] dex#6146

even better

[16-Aug-20 11:16 PM] ickyschlicky#2800

bc i think discord runs on electron

[16-Aug-20 11:16 PM] ickyschlicky#2800

so yeah its pretty good

[16-Aug-20 11:16 PM] dex#6146

surely you need admin perms on the server though

[16-Aug-20 11:16 PM] ickyschlicky#2800

i gave everyone admin perms on the server

[16-Aug-20 11:26 PM] Shadowfenrrir#8206
